Rewarding Capability, Commitment & Growth

LAUNCHING VERITAS PARTNER FORCE

With Veritas, you will stay ahead of the market, deliver even more value to your customers and see an enhanced and more predictable profitability payback on your commitment and investment.

Greater opportunity to earn greater rewards, with more predictability

We have enhanced the Growth Accelerator Rebate, maintaining the rates while introducing a 3-step payout, increasing high growth accelerators and simplifying the quarterly payout. You will get paid from the first dollar and rewarded increasingly for your growth, providing you with improved predictability and consistency in running your business.

Get paid on bigger deals

We have increased the Opportunity Registration cap from US \$500K to US \$1M, while maintaining the payout rates. So as you create and register bigger Veritas deals with your strategic customers, you get rewarded for that commitment and that business.

Win by specializing in information management with Veritas

For our skilled and committed partners, it's never been more compelling to get to platinum status and differentiate. We've reset requirements to two expert competencies, and removed the customer reference requirement. We will be replacing it with Customer Partner Success to showcase your customer successes.
