Effective Date:	1 August 2016
Product Information:	<p>Veritas has released Veritas NetBackup™ 5240 Appliance, the next generation solution for the 52x0 series of Veritas NetBackup™ Appliances. Veritas NetBackup™ 5240 Appliance is an enterprise backup appliance with expandable storage and intelligent end-to-end deduplication for physical and virtual environments.</p> <p>To assist in promoting the Veritas NetBackup™ 5240 Appliance, Veritas will be offering a promotional discount for a limited time to encourage our mutual customers to refresh their existing data protection infrastructure with Veritas NetBackup™ 5240 Appliance. The promotion SKUs apply to select configurations, and include complementary standard installation services. The following 5240 configurations qualify for the promotion: 53TB, 103TB, 152TB, and 201TB capacity options.</p> <p>Note: Promotional details, SKUs and Pricing will be communicated 1 August, 2016 with an effective date of 7 September 2016. These SKUs can be ordered prior to the effective date but will not appear until September's published price list. In addition, Veritas will honor the promotional discount on orders received prior to 1 August, 2016.</p> <p>How to Place Orders Prior to 1 August 2016: Quote and reference the Standard Veritas NetBackup™ 5240 Appliance SKUs, recently communicated in the 6 June 2016 channel notification. In addition to the standard 5240 SKU, include the corresponding Standard Installation Support SKU on the quote/order to qualify for the complementary service. Please reference Global Veritas NetBackup™ 5240 Appliance and Promotion in the notes section of each quote/order.</p>

How to Place Orders on/after 1 August 2016:
