How to market better & sell more Enterprise Backup

PARTNER RESOURCE KIT

INTRODUCTION

Welcome to the Enterprise Backup Partner Resource Kit.

Over the following pages you'll find resources to help you:

- Understand the product
- Discover sales opportunities
- Create new leads
- Accelerate your sales
- Maximise your profit

So, go ahead! Take advantage of the materials and services available. And if you would like further help and support, do get in touch.

See help and contacts page ●

VISION AND STRATEGY

The Veritas Mission

Our mission is to enable organisations to harness the power of their information, wherever it resides, by delivering solutions that drive availability and reveal insights.

Converged Infrastructure

Converged infrastructure offers resource-limited organisations agility and scalability at a lower up-front cost, along with fast deployment, simplified maintenance and opportunities for automation. Due to these wide ranging benefits, the estimated revenue from CI in 2014 was \$6 billion¹ and a growth of 30% is forecast in 2015².

These are the convergence challenges that you can help customers to overcome:

- Trading simplicity for new silos and lower visibility
- Patchwork converged fixes could lead to fragmentation
- Changing the data protection architecture puts the business at risk
- Convergence can lead to unplanned restructuring of the backup environment

Veritas Solution: Converged Backup

Veritas provides visibility and efficient management across infrastructure silos, in a converged infrastructure that's dedicated to data protection, whilst also simple and quick to install. This solution addresses the growing complexity and scale of today's data protection environments and drives out the high cost of management. With Veritas, you can help customers to achieve smooth IT modernisation – e.g. virtualization, hybrid cloud and converged infrastructure and deliver cloud-like service levels with on-premise benefits.

SOLUTION OVERVIEW

About NetBackup

Veritas NetBackup[™] helps you improve customer satisfaction, maximise profitability, and deliver superior quality of service to your customers. With NetBackup 7.7 you can architect the right solutions without conforming to limited backup technologies or resorting to point products. NetBackup streamlines skillset development, allowing you to quickly ramp your technical proficiency and maximise the profitability of your billable engineering time. As your customers seek to improve their agility and lower costs, offer them a menu of backup and recovery services managed from an intuitive, self-service portal and priced conveniently on a monthly subscription basis.

Introducing NetBackup 7.7. Watch the video 🔊

Veritas NetBackup[™] Appliances enable you to provide protection from a single vendor, maximise profitability, and reduce customers OpEx, CapEx and complexity through converged backup and positions you as a valued partner.

APJ Market Opportunity

The backup and recovery market is growing and the FY16 APJ Veritas addressable market is set to be \$843 M, 7% 3-YR CAGR for backup software³. Veritas continues to lead the way in backup and recovery software, a leader in every magic quadrant from 1999 to 2015⁴.

Backup Appliances are increasingly popular, especially for remote offices and the SMB market with a massive \$253M addressable market and 10% 3-YR CAGR for backup appliances⁵.

Virtualization has surpassed 50% of all server workloads, according to the Gartner Group, which believes it will reach 86% in 2016. As a result, customers need a solution which protects both virtual and physical environments. NetBackup does this – and with unique V-Ray technology, it can enable single file and application object recovery, superior visibility into a backup job and help customers manage Virtual Machine sprawl.

To learn more about the opportunities in your market, view the Veritas Market Opportunity Guide.

MARKET OPPORTUNITY

Target Customers

Company size: 500+ employees.

IT environment: Head office with numerous satellite offices, infrastructure mix of physical/ virtual/cloud, running business critical apps. Needs to meet stringent recovery, security and compliance requirements.

Influencers and Decision Makers: Data Protection Lifecycle⁶

Backup Admin (38%) **CIO/IT Director** (25%)

Introduces data protection product(s) for consideration and evaluation

DBA/VM Admin (31%) **Backup Admin** (30%)

Manages the new data protection products on an ongoing basis

DBA/VM Admin (35%) **Backup Admin** (27%)

Conducts hands-on evaluation of potential data protection product(s)

(25%)

product(s)

DBA/VM Admin (30%) IT Architect

Implements new data protection

Head of DC/ Infrastructure IT (55%) **DBA/VM Admin** (16%)

•

Makes the final decision on which data protection product(s) to implement

IMPORTANT

Focus on the right audience with the right message at the right time, or you may risk prolonged sales cycles and non-purchase decisions

SALES ENABLEMENT

Veritas Expert Community

The Veritas Expert Community is where current and future experts go to innovate, experiment and accelerate in partnership with Veritas. Our members are leaders and champions with a passion for empowering businesses to solve bigger information management problems with our portfolio of market leading next generation solutions in:

- Backup & Recovery
- Information Availability
- Information Insight

(Amazon ?) and the service ?) and the service ? (AMS) as well as potentially any Amazon 53 compatible cloud storage providers certified for use with NetBleckup, please see the latest NetBleckup induces Compatibility (PGL)

2. Move more data to and from the cloud faster—The new Amazon 53 compatible cloud connector introduced in NetBackup 71 significated for performance, taking advontago of multitataraming and other techniques to more fully septicit variable have and with While performance results will vary for different environments, internal NetBackup 73 setting has alsone performance reprovements of up to 30 times faster backups and resistore when compared to perioda NetBackup releases.

3. Backup and recover VMware* Visphere* Virtual Volumes* (VVOLa)—Introduced in VMware vSphere 6, VVOLa change the storage management paralogin from LUNe to VM, enabling batter partormance and greater control at the hypervisor level. NetBackup 77 26 built rencopsize, protect, and recover VMwares virtual machines stored on VVOLa, and NetBackup Intelligent Policia Involvementhanced to easily automate these operation.

4. Deliver auf narvice for Microsoft ¹⁰ Hyper ¹⁴ and righters administrators – For many VM administrators, having visibility and control of backup and economy is a meetingly. With NetBackup 77, Hyper V and vSphree admin can access an interfaces adds on pulsy in whith Microsoft System. Center V result Administrators have VM administrators, having visibility and up in status and provides and energy transmission and economy and an economy in a meeting of the state and equipy having access to NetBackup interest Systems VM administrators have VM administrators and economy interest and provides and energy interesting access to NetBackup Interest Recovery allowing Minuter VM to boot directly from backup direct and external sectors.

5. Simply and automate hyper V and Microsoft 50, Server[®] protection—With IT environments becoming own more dynamical elater, grave automatical is needed to help administrations latera point and the dronges. NRelskapp 27 introduces Intellign Paticias for Microsoft Hyper V virtual machines (VMa) and Microsoft SQL Server databases, evabling NNEBsicky to automatically discover and protect new VMa and database instances and more effectively adaptite to danaying confidence.

6. Protect Herdpe (2007 environments)—For entreprises using scale out NAS excitators have and on NeXApp Clustered Uast ONTAP*(ECO), new enhancements have base added to MERAskips 7.7 to scape(71MMP backaps) of data on these systems it addition, in version 7.7 MERaskip Replication Director is able to certabuttete, index, and mexage hard save systems station of environments have backaps (Figure 20 Normal Scale Context).

MAXIMISE YOUR PROFIT

Opportunity Registration Program

This program provides rebates to you for actively identifying, developing and closing incremental sales opportunities on qualifying products, such as NetBackup.

The opportunity must also be one of the following:

- A new end-user customer account for Veritas
- A sales opportunity for new products within an existing customer account
- A new project for an existing Veritas customer

To find out more, go to Opportunity Registration Program under 'Programs' on PartnerNet.
